CONCERNING BOYS CLOTHING. "SILK SEWED" VERSUS "COTTON SEWED." What seamstress would hem a bed sheet with stik? What tailor would sew a suit with cotton? Many of the ready-made suits sold nowadays are cotton sewed." That accounts for the ripping and pulling. There's no economy in buying such an ar ticle. It won't wear. The cotton soon becomes rotten

OURS ARE "SILK SEWED." To our manufacturers we say, "No cotton," and we see to it that we get no cotton. Therefore what cloth-

ing you buy here is ALL WOOL AND SILK SEWED.

School fays are close by, and the boys, accustomed to a summer's romping and rollicking will need a suit that will stand grief. You'll want it to be handome as well. We have both in mind. OUR FALL STOCK is fast coming in. We've already a good asortment. Here are a few early specials: .No. 1. DOUBLE-BREASTED BOX COAT * SUIT strictly all wool; sewed all through

ADVANCE STYLES IN FALL TEA GOWNS.

The wrapper of today is so pretty that it also has a right to the name of TEA GOWN, by which it is now generally known. The loose, ill-fitting garment is a thing of the past, and in its place is a dainty gown, the styles of which have many modifications, each one pleasins to the eye and following the fashions of the day. It is one of the triumphs of this industry that so pretty a garment can be produced for so little

A DISTRICT VICTORY.

Now may the first regiment of the District National Guard rejoice and be glad. Let Col. first regiment has won the bronze horse for the second time and in doing it put up a recordbreaking score.

Any team that in succeeding years touches the highly elevated peg will have to stand on its toe tips. And then, as if it was not glory enough for Washington to have one of its teams reach the phenomenal altitude of 1,464, it was announced that the District of Columbia engineer team was second, with 1,660, while the second District of Columbia regiment aggregation came in third, with 1,837. The sixth battalion team is in eighth place, with 19150 to its credit, and it is not a tailender by any means. There are three Jersey teams below it, the lowest of them getting but 1,067. And how exultant every body was in Camp Spencer last night, and how after everybody had had a good sleep the exultation broke out again this morning.

Maybe Gen. Ordway and the other members of the brigade headquarters party were not pleased.
Pennsylvania's "cracks" were very much up-set at their defeat. They imagined they were in full possession of a soft snap. All their cal-culations were knocked out of sight.

EMPLOYING CONVICTS ON THE STREETS. In regard to another point to which attention has been called in the public print, namely, the employment of the work house prisoners on public works, I would beg to say that the com-plaint does not seem to be well grounded. The only thing that might be suggested as an im-provement on the present order of things is to employ the prisoners only in the suburbs or out-of-the-way places. There is an objection to having these men moving about in the crowded parts of the city. If such a distinction could be made, and the superintendent of the asylum directed to confine his employment of the men to more distant parts of the city, one objection The people's party folks are greatly dissatis-
